## SUMMARY

Techno-Functional ERPNext Consultant with proven experience delivering customized ERP solutions and user support. Currently based in the UAE, specializing in ERPNext implementation, process improvement, and system optimization.

Previously worked as an Associate Consultant in SAP MM Support for over a year, gaining solid expertise in material management and end-user support. Also completed freelance projects preparing SAP MM end-user documentation. Strong at translating business requirements into effective ERP solutions and ensuring smooth user adoption.

## WORK EXPERIENCES

### ERPNext Techno-Functional Consultant - Techford AI (UAE)          APR 2024 - PRESENT

- Designed and implemented ERPNext customizations, including workflow automation, user permission management, and advanced scripting on both client and server sides.

- Developed dynamic reports and charts using SQL and Python, supporting real-time data analysis and business reporting needs. Built customized print formats using HTML, Jinja templates, and external libraries like PDFMake through client scripts for professional and flexible print outputs.

- Configured both standard and script-based notifications to ensure timely communication, task tracking, and streamlined business processes. Integrated Gmail and Outlook with ERPNext to automate email workflows and enhance communication efficiency within the ERP system.

- Enhanced UI and reporting capabilities by embedding custom HTML blocks in workspaces, delivering interactive dashboards and user-focused interfaces. Solved complex technical challenges through in-depth scripting and functional analysis, ensuring scalable, maintainable ERP solutions aligned with business goals.

### Associate Consultant - Tech Mahindra (Chennai)          DEC 2021 - FEB 2023

- Acquired advanced training in SAP MM and enhanced technical & Functional proficiency.

- Collaborate with business stakeholder to gather information. Then, analyze and understand the business requirement to configure the integration scenarios.

- Provide end user support and assistance for SAP MM functions, addressing user inquiries, troubleshooting issues and resolving problems.

- Supporting end user during procurement including goods receipt, invoice receipt, inventory management, etc. Maintain and update master data including material master, vendor master & purchase info record.

### SAP MM Consultant - FluxxIT (Remote)          AUG 2023 - SEP 2023
          (2 MONTHS)

- Collaborate with client to gather business blueprint of the project and analyze the requirement from the client.

- Created comprehensive end-user documentation for SAP MM and SAP SD modules, tailored to business processes and client-specific configurations.

- Ensured documentation was user-friendly, visually structured, and aligned with standard operating procedures to support smooth system adoption.
